Vienna, Jan. 10.

TWo days since arrived here the Count *de Saponara*, who has for some time resided, by the Emperors order, with Count *Teckeley*; and yesterday arrived two Expresses from *Hungary*, we cannot learn what they brought, farther than that in the general they give an account of the great preparations of the *Turks*, and that Count *Teckeley* has so far engaged himself with them, that h. cannot hearken to any Propolals that are made from hence, for his separate Accommodation. The 8th Instant 1000 Horse marched in two Bodies under the Command of th Baron *de Borschtra*, and the Count of *Sallaburg*, towards the *Waag*, where they are to quarter to hinder the incursions of the *Turks*; and another Party of Horse and Dragoons is ordered to march to the Berg-Towns to cover the Miners. There is now no more discourse of the Emperors Journey to *Ratisbonne*; but it is said, that his Imperial Majesty will send the Prince of *Swartzenburg* thither, to impart to the States of the Empire Assembled there, his Imperial Majesties thoughts upon the present state of Affairs. The Fortifications that are intended to be made for the security of the Suburbs of this City, will be speedily taken in hand, the Emperor having appointed some Ingeniers to have the care of them. The new Levies are begun, but the Officers seem fearful they shall not be able to finish them in the time limited, Besides those Regiments that are yet to be raised, it is reckoned that the Emperor has at this time on foot 66780 Men, according to the following List; Old Regiments of Foot, *Grana* 2040, *Kesserstein* 2040, *Knie* 2040, Old *Starenberg* 2040, *Mansfelt* 2040, *Serini* 2040, *Stadel* 2040, *Gousche* 2040, Young *Staxenberg* 2040, *Baden* 2040, *Strasoldo* 2040, *Newburg* 2040, *Scherfenberg* 2040, which together make 26520 Foot; Dragoons, *Schutz* 1000, *Styrum* 1000, together 2000; Horse, *Caprara* 880, *Dunewalt* 880, *Rabbata* 880, *Metternich* 880, *Caraffa* 880, *Taff* 880, *Merei* 880, *Palfi* 880, *Montecuculi* 880, *Piccolumini* 880, together 8800; Croats, *Ladrou* 1000, *Baragozzi* 1500, *Kery* 450, together 2950; So that the old Regiments make in all 40270 Men. Franefort, Jan. 19. On *Friday* last parted from hence the Count *de Rosenberg*, one of the Imperial Ambassadors for *Vienna*; and to Morrow his Colleague, Monsieur *Straetman*, likewise leaves this place, and takes his Journey for *Ratisbonne*. The Prince of *Waldecke* has been here, and has pressed these Magistrates to enter into the League concluded between the Emperor and the Circle of *Franconia*, but they seem not at all inclined thereunto, desiring rather to maintain a Neutrality. From *Ratisbonne* they write, That not only the Electoral Colledge, but likewise those of the Princes, and the Imperial Towns have resolved to Treat with Monsieur *Verjus*, the *French* Minister there; And from *Vienna* we have an account, That the Emperor was sending the Prince of *Swartzenburg* to *Ratisbonne*, to negotiate matters on his Imperial Majesties behalf.

Cologne, Jan. 22. The Affairs of this City are in much disorder, through the frequent Disputes that arise between the Magistrates and the Burghers; the latter are now assembled in their several Halls, and have drawn up a Paper containing a great many Articles, which they pretend to have satisfaction in, and have delivered it to the Magistrates, with a demand of a speedy and positive Answer. The Deputies of *Liege* begin to speak of returning home, finding they are not able to do any good here. Our Letters from *Ratisbonne* of the 12 Instant, give us an account, That the Bishop of *Aichstadt*, the Emperors Commissioner, having communicated to the Dyet an Imperial Decree of the 29 of *December*, wherein his Imperial Majesty does, among other things, declare, how desirous he is that the Differences that are depending between the Empire and the Crown of *France* may be amicably composed, and that he is willing a Negotiation should be entred into with Monsieur *Verjus*, the *French* Minister at *Ratisbonne* for that purpose; The several Colledges had thereupon resolved to begin a Treaty with the said Minister accordingly.

Hamburg, Jan. 17. Our last Letters from *Stockholm* gave us an account, That the States Assembled there had given the King of *Sueden* 1200 thousand Crowns, which are to be raised immediately; and that they had promised the King a far greater supply in case of a War. The Letters add, That Count *Coningsmarke* was preparing for his departure for *Pomeren*, of which Country he is Governor for the King of *Sueden*, and that his Baggage was already Shipt. The Princes of *Lunenburg* continue to raise Men, having promised to assist the Emperor against the *Turks*. The Courier that should have arrived here this day from *Copenhagen*, was yesterday set upon by three Persons, and his Horse and Letters taken from him, so that we have no fresh news from that Quarter; however the general saying here is, that the Expedient which the Queen Mother of *Denmark* proposed for the reconciling the Differences
